

Enhanced Police Information Check (E-PIC)

Investigate further with BackCheck's most comprehensive Canadian criminal screening product!

The Enhanced Police Information Check (E-PIC) was created to assist BackCheck clients in high security sectors and for those screening paid or volunteer positions with greater amounts of risk involved.

Providing an unprecedented scope of conviction and non-conviction information, the E-PIC allows managers to make the most thoroughly informed hiring decision possible.

Criminal Record Check (CRC) – a search of convictions held within the RCMP National Repository of Criminal Records.

Local Police Information (LPI) – a search of the Canadian Police Information Centre (CPIC) database and a separate comprehensive Canada-wide local police Record Management Systems (RMS) query for additional conviction and non-conviction information.

Additional information that may be discovered through this in-depth search includes:

- Charges
- Warrants
- Peace Bonds
- Prohibition Orders
- Release Conditions
- Probation Orders
- Summary Convictions
- Recent Convictions not yet registered in the National Repository.

Turnaround Time: BackCheck's E-PIC will be completed within one business day.

Please note: If potentially relevant locally held information is located the applicant will be referred to their local police service for further investigation. The applicant's local police service will review any discovered materials for relevancy to the application. ONLY police services may authorize release of locally held police information.

To add the Enhanced Police Information Check (E-PIC) to your BackCheck screening program or for more information, please contact your Account Executive directly or BackCheck's Client Services Team.
